The **Perfect Shipper’s Tape** is easy to use:

- 1) It features a strong but flexible Fiberglas tape that is a full **170 inches (over 14 feet)** long
- 2) This unique tape wraps around the Girth of any package and automatically “cinches” to the exact Girth measurement ($2 \times \text{width} + 2 \times \text{breadth}$)
- 3) The package Length measurement is then added to the Girth
- 4) The total measurement of Girth + Length is clearly indicated on the tape and categorizes the package as:
 - a) **“STANDARD SERVICE”**
 - b) **“ADDITIONAL HANDLING”**
 - c) **“OVERSIZED 1” (OS1)**
 - d) **“OVERSIZED 2” (OS2)**
 - e) **“OVERSIZED 3” (OS3)**
 - f) **“MAXIMUM”**

These categories are indicated right on the tape measure and are industry standards used by: UPS, FedEx, US Postal Service, and others.
